

# **Ola Electric:** Market Performance & Strategic Analysis

A data-driven analysis of declining market share and competitive dynamics in India's EV scooter market

**Aryan Awasthi**

Business Analyst

# Ola Electric is **losing market** share despite rapid EV market growth.

## Key concerns:

- Declining competitive positioning
- Inconsistent growth vs competitors
- After-sales service gaps
- Product quality concerns

**Declining Market Share of Ola**

**Market share declined from ~27% to ~7 % in 12 months**

# Objective of Analysis

Structured approach to identify drivers behind Ola’s declining market position

Analyze key **competitors**  
→Ola vs TVS, Bajaj, Ather

Assess market share **decline**  
→ Measure trend & drop

Identify emerging **leaders**  
→ Track market shifts

Diagnose key **drivers**  
→ Find root causes

# EV Market Growth vs Ola Declining Market Share

EV market nearly doubled, but Ola’s market share sharply declined

EV Market Growing Rapidly

Market size: ~70K → ~128K units

Ola Market Share Declining

Ola share: ~27% → ~7%

# Shift in Market Leadership: TVS & Bajaj Rising, Ola Declining

TVS and Bajaj are gaining market share while Ola's position is weakening.

## Ola Losing Leadership as Competitors Gain Ground

- TVS shows consistent upward trend
- Bajaj gaining steady momentum
- Ola declining with high volatility

# Why Ola is **Losing** Market Share

## 1. Product Quality Issues

- A. Frequent product complaints
- B. **Battery** & software issues
- C. Inconsistent performance

## 2. After-Sales Service Gaps

- A. **Delayed** issue resolution
- A. Poor customer experience
- B. Weak service network

## 3. Strong Competitor Execution

- A. TVS & Bajaj have strong **brand** trust
- B. Better service infrastructure
- C. Reliable product performance

## 4. Pricing & Positioning Issues

- A. Weak value vs competitors
- B. Inconsistent pricing strategy
- C. **Unclear** brand positioning

# Strategic **Recommendation** for Ola Electric

## 1. Improve Product Quality

- A. **Strengthen** battery reliability
- B. Fix Software & performance issues
- C. Enhance Quality control

Product —→ Trust

## 2. Strengthen After-Sale Service

- A. Expand **service** network
- B. Faster issue resolution
- C. Improve customer support

Service —→ Satisfaction

## 3. Compete with Market Leaders

- A. Match competitor service **quality**
- B. Improve product reliability
- C. Build Strong brand trust

Brand —→ Market Share

## 4. Optimize Pricing & Positioning

- A. Offer better value vs competitors
- B. Clear pricing Strategy
- C. Strong brand **positioning**

Pricing —→ Sales

# Final Insights: Ola's Market Position

## Key Insights

- India's EV market is growing rapidly(**~70k - ~128k units**)
- Ola's market share declined sharply (**~27% - ~7%**)
- Competitors like TVS & Bajaj are gaining strong momentum
- Decline is driven by product, service and positioning gaps

## Strategic Conclusion

- Ola is not losing due to market slowdown but due to **execution weaknesses** in a high-growth market
